

Strong Wind in South-West of Khatlon Province, Tajikistan
Situation Report № 1
March 27, 2015

Situation Overview

On 24 March, 2015 strong wind affected four districts of south-west of Khatlon Province, which began at 03:30 am and lasting until 6:40 am. Namely Jilikul, Qumsangir, Nosiri Khisrav and Shaartuz districts were hit. Severely affected areas include G. Gulmurod and 20-solagi Istiqloliyati Tojikiston Jamoats of Jilikul district and Firuza Jamoat of Nosiri Khisrav district.

Disaster Overview Map of Strong Wind Occured in South-West of Khatlon Province, Tajikistan in March 24, 2015

Damage Information

In March 25, 2015 the Commission for Emergency Situations, consisting from the representatives of regional Committee for Emergency Situations (CoES) of Khatlon Province and relevant state agencies and district-level authorities conducted rapid damage and needs assessment. The Red Crescent Society of Tajikistan also conducted needs assessment of the affected area.

The results of preliminary assessment showed that mainly the power transmission poles were collapsed; roofs and windows of private houses and social infrastructure were destroyed. According to the assessment, Jilikul and Nosiri Khisrav districts were identified as the most affected areas. The population in Firuza Jamoat of Nosiri Khisrav district, where the power transmission poles were collapsed, do not have electricity. No human casualties reported.

The information provided in the table below is based on the assessment conducted by the Regional branch of the Committee of Emergency Situations and Civil Defense, and Tajikistan Red Crescent Society.
