

National Disaster Risk Management Strategy: Reporting System

Mr. Islom Usmanov
DRR Advisor, UNDP DRMP
Tajikistan, 2011

National Disaster Risk Management Strategy: Reporting System

The report includes two different sources:

- a) Reports from governmental agencies on the implementation of activities identified in the Action Plan 2010 – 2015 and according to the standard format.
- b) Reports from none-governmental and international organizations on their involvement in disaster risk reduction activities and according to the standard format.

National Disaster Risk Management Strategy: Reporting System

In 2011 the reporting template will be piloted, therefore, you are welcome to comment on its implementation!

National Disaster Risk Management Strategy: Reporting System

Cycle of reporting:

- a) Semi-annual Progress Reports: 10 July, 10 January
- b) Annual Progress Reports: 10 February each year

National Disaster Risk Management Strategy: Reporting System

A consolidated progress report on the activities, outcomes, challenges and recommendations on the implementation of the NDRMS will be developed by the CoES and submitted to the Government of Tajikistan on the basis of all submitted semi-annual reports.

The consolidated progress report will be openly disseminated to all interested parties.

National Disaster Risk Management Strategy: Reporting System

The deadline for submission of the progress reports
for 2010 – mid 2011 is
September 15!

National Disaster Risk Management Strategy: Reporting System

Reporting format for none-governmental and international organizations

Results	Indicators	Implementation	Implementing Agency	Implementation Period	Sources of funding	Budget	Realization
