## Task of the joint exercise:

### 1. GENERAL SITUATION.

On the territory of Batken region of the RK near the border of RT there is a water reservoir of Tortogul which was constructed 30 years ago. The reservoir is 26 km in south of Isfara city and 12 km south-east of Batken.

Maximum water volume - 90 million cubic meters. Length of western dam - 1094 meters, eastern - 545 метров.

As the result of dyke breach south-east of Isfara can be flooded. Mainly this is Lakkon village and nearby populated areas.

### 2. IMAGINARY SITUATION.

CoES of Isfara region operates normally, and life is going on.

21 September 2011 at 6 o'clock in the eastern part of the Tortogul reservoir and earthquake strikes with the magnitude of 7. Part of the dam is damaged and the threat of collapse of the dam arises.

There is a potential threat to the population of Isfara and Konibodom districts of Sughd region of RT.

### 3. Information.

CoES of Isfara are possess 40% of communication equipments, 50% transportation, 30% of Civil Defence equipment.

Transportation is in good condition, roads and bridges are usable, the weather is not good. The temperature is around 25 °C. The village situation is not satisfactory.

### 4. IMPIEMENTER.

Headquarter of CoES of Isfara district must assess the situation and prepare action plan with the border regions of Kyrgyzstan.
